

minotaur mazes

COVID-19 Cleaning Recommendations

We know the health and safety of your guests, volunteers, and staff is your top priority. Sanitizing all surfaces, including the Minotaur Mazes traveling exhibit you are hosting, is critical to keeping everyone safe and healthy. With that in mind, we're sharing recommendations based on CDC and EPA guidelines, for effective sanitizing cleaners that are compatible with Minotaur Mazes exhibit materials.

In general, we recommend the following best practices:

- Add hand sanitizer stations at the entrance/exit of the maze and in three interactive rooms, so guests can sanitize their hands before and after participating.
- Sanitize frequently touched surfaces multiple times throughout the day.
- Remove touchables that can't be sanitized regularly or effectively.
- Add extra signage throughout the building encouraging hand washing.

The table below lists components, surface materials, and suggested cleaning protocol using EPA recommended sanitizing cleaners specific to the Mission Safari traveling exhibit.

Keep in mind when using recommended sanitizing cleaners,

- Use for disinfecting surfaces only.
- Follow instructions on the product label for safe and effective use.
- Test a small area of the surface for compatibility before large-scale cleaning.
- Always use a clean, lint-free cloth, not paper products.
- These cleaners are much harsher on exhibit materials than is normally recommended. Please use these specific cleaners as a temporary measure until the subsidence of COVID-19.
- If in doubt on proper cleaning technique, follow CDC recommendations for cleaning different types of materials here: <https://www.cdc.gov/coronavirus/2019-ncov/community/disinfecting-building-facility.html>

Component	Material	Approved Cleaners**	Procedure	Frequency
Walls	Hard plastic	PURELL Surface Disinfectant Clorox Disinfecting Wipes Lysol Disinfecting Wipes	Clean with soap + water, in a backpack or other pressurized sprayer to hose down walls and rinse with water. Sanitize each wall, especially everything below 6 feet.	Periodically

Clear panels	Poly-carbonate	PURELL Surface Disinfectant	Clean with soap + water, in a backpack or other pressurized sprayer to hose down walls and rinse with water. Sanitize each wall, especially everything below 6 feet.	Periodically
Graphics	Vinyl	PURELL Surface Disinfectant Clorox Disinfecting Wipes Lysol Disinfecting Wipes	Spray or wipe down each wall, especially everything below 6 feet	Periodically, more often with high visitation
Flip doors (on animal panels)	Sintra with vinyl	Remove	Remove	Remove
Pipe	Aluminum, metal	PURELL Surface Disinfectant Clorox Disinfecting Wipes Lysol Disinfecting Wipes	Spray or wipe down high touch areas, at corners and near the entrance/exit	Periodically, more often with high visitation
Spinning wheels	Hard plastic with vinyl	PURELL Surface Disinfectant Clorox Disinfecting Wipes Lysol Disinfecting Wipes	Spray and wipe down each wheel surface and edges	Multiple times each day, more often with higher numbers of visitors
Brachiation (Monkey) Bars	Metal with powdercoating	Clorox Disinfecting Wipes Lysol Disinfecting Wipes	Sanitize hand rails and each bar thoroughly	Multiple times each day, more often with higher numbers of visitors
Spiderweb	Rope, Hard plastic, Rubber safety tiles, Polyester netting	Hard plastic: Clorox Disinfecting Wipes Lysol Disinfecting Wipes Rope & Netting: Lysol Disinfectant Spray	Wipe down hard plastic connecting points within the spider web. Use spray to sanitize rope and netting.	Multiple times each day, more often with high visitation. If frequent cleaning isn't possible, block access.
Monorail	Metal handle, Rubber safety floor, Polyester netting	PURELL Surface Disinfectant Clorox Disinfecting Wipes Lysol Disinfecting Wipes	Sanitize & dry the handle thoroughly. Sanitize the pipe on either side of the entrance to the monorail. Use spray to sanitize rope, flooring and netting.	Multiple times each day, more often with higher numbers of visitors
Netting (around)	Polyester netting	Lysol Disinfectant Spray	Spray both sides of netting, especially everything below 6 feet	Periodically

monorail & spider web)				
Jungle Vines	Polypropylene strapping	Remove	Remove	Remove

****Table of material types and recommended sanitizing cleaners.** If using an alternate product found on the EPA’s list of products, please reference these guidelines for approved materials before use.

	Metal (pipe)	Hard Plastic (walls)	Polycarbonate (clear panels)	Vinyl (graphics)	Stained Wood (platform,steps)	Rubber Safety Floor	Textile (jungle straps)
