Watersheds,  
 wildlife,  
 and wonder!

Developed with a focus on stewardship by renowned marine-life artist Wyland, Water's Extreme Journey joins the worlds of art and science to demonstrate the importance of clean water and how it connects us all.

*"... the exhibit couldn't have come at a better time as our region has experienced some very dry weather. My only wish is that it could stay with us longer!!!"*  
 - Hands On! Regional Museum, Tennessee

*"People who visited the exhibit had no idea that what we do really does impact water, but this exhibit changed that. Even a year later we are still getting comments."*  
 - Western Heritage Museum Complex, New Mexico
