Mission Botanica weaves biodiversity and conservation content into an immersive, multi-layered, physically-engaging adventure. The bilingual journey culminates with a Secret Forest quest where visitors search for featured plant species hidden in the maze. For gardens or arboretums, visitors are then directed where to find each plant in person.

"Mission Botanica is incredible! a wonderful addition to the arboretum this summer!"

- Holden Arboretum

"My grandchildren were enthralled with the maze. After an hour, they still hadn't tired of the journey. What a wonderful way to combine fun and education!"

- Barbara Wood, grandmother of girls aged 4 and 7

Mission Botanica engages up to 200 visitors at a time, many hundreds per hour, and has something for everyone. 15 interactives and photo-ops add intrigue around each corner. The biodiversity challenge and vibrant plant panels encourage meaningful experiences with the conservation content and promote personal connections with local and exotic species.
