# Are dinosaurs really extinct?

Today's science is more alive than ever.

Pterosaur, Plesiosaur, Phytosaur...they look like dinosaurs, spell like dinosaurs. But just because it ends with a "s-a-u-r", doesn't mean it begins with a "ROAR!" Uncover the facts, fictions and fossils of Dinosaur Revolution as you LIVE LARGE in reptilian role-play activities. Undertake three Mesozoic Missions spanning 150 million years and mimic dinosaur behavior; become a junior paleontologist and find evidence of your dinosaur doings; learn why dinosaurs are one of the most successful survivors in earth's history; and unearth a shocking discovery: dinosaurs may not be extinct!
